Major Changes in Group Policy:

The group has officially decided to move from 2-day meetings to 2.5 days to accommodate more time to review dealer numbers and future site visits. Additionally, the group voted in favor of rotating executive positions annually with the Senior Member moving into chair role for calendar year. Current chair will then move into advisory role, and a new Senior Member would be voted in.

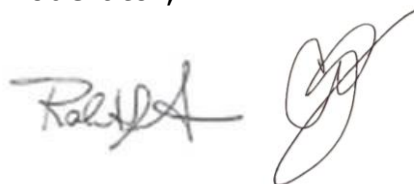

Speaker or Training:

As mentioned, group is interested in more interpretation of the numbers, performance and reviewing mystery shop data for upcoming meeting. Like many dealers, inventory reduction will be the main focus for the group in 2026
